WORK EXPERIENCES

Full Stack App/Web Developer | Full-time — Mar 2026 - Present
Branding Pioneers — Hybrid • Gurgaon

- Developed multiple client websites to enhance online presence.
- Created various internal tools and automation solutions that streamlined workflows and reduced manual effort.
- Implemented an **Employee Task Tracker**, increasing work efficiency by **50%**.

Technologies / Skills Used : React, Next.js, Astro, Php, Express, React Native

Full Stack / MERN Developer Intern | Internship — Sep 2025 - Mar 2026
Branding Pioneers — On-site • Gurgaon

- Developed multi-module internal platforms and high-impact client projects with **Node.js, Express, and React**.
- Automated manual processes and tactical meeting updates across departments by engineering custom App Scripts, leveraging **WhatsApp** automation and internal APIs.
- Achieved a **60% reduction** in manual work across various departments.

Technologies / Skills Used : Node.js, Express, React

PROJECTS

PioneerOS — Jan 2023 - Oct 2023
Developer

- Developed a **multi-module internal platform** featuring project management, messaging, and responsive dashboards.
- **Queue system** implemented for multi-user performance.

Technologies / Tools Used : React, Next.js, Node.js, Prisma, PostgreSQL

AI-Telz — Jan 2023 - Oct 2023
Developer

- Developed the **marketing website** and a **core voice AI platform**.
- Features include spreadsheet-integrated outbound calls for automated lead follow-up, AI-generated call summaries with smart transcript filtering, and a dynamic web-form that triggers instant AI agent callbacks.

Technologies / Tools Used : React, Node.js, Twilio

Rain CRM — Jan 2023 - Oct 2023
Developer

- Engineered a **full-featured CRM** with AI WhatsApp bots for numerical extraction to spreadsheets, in-app Twilio calling, and web-form-to-WhatsApp automation.
- Includes a native **AI-powered email client** that automatically prioritizes messages, sending critical alerts directly to WhatsApp.

Technologies / Tools Used : React, Node.js, Express, MongoDB

HR-Buddy — Jan 2023 - Oct 2023
Developer

- Developed an **AI-driven** employee onboarding quiz system with an integrated **anti-cheat mechanism**.
- Conducted initial assessments of employees prior to onboarding.

Technologies / Tools Used : React, Node.js

SOFTWARE ENGINEERING & HOBBY PROJECTS

Veer Music (Nothing OS Style Music App)

- Engineered an AMOLED Nothing OS-inspired streaming app using **React Native (Expo)** and an **Express/Node.js** audio-proxy backend with HTTP Range support for instant seeking, synced LRC lyrics, and offline LRU caching.

Ranveer Echo (H.U.D. Desktop AI Assistant)

- Built a Jarvis-style desktop assistant with **Tauri v2 & Rust**, integrating OpenCV LBPH face identification, MediaPipe hand-gesture control, and multi-LLM ReAct tool loops for autonomous computer control.

WebRip (Full Website Scraper & Cloner)

- Developed a multi-threaded BFS website crawler and asset mirroring engine using **Python, Flask & Playwright** that clones modern JS SPAs, bypasses anti-bot walls, and streams live progress via **SSE**.

API ENDPOINT VISUALIZER

- Developed a published **npm package** that visualizes all API endpoints in Web Project, effectively identifying unused or misconfigured routes.

Stock Management System

- A robust GUI-based hobby project built using the **Qt library**, focused on object-oriented programming, file handling, and efficient data structuring.

SKILLS

Databases :	MongoDB, PostgreSQL, Prisma
Frameworks & Libraries :	React.js, Next.js, Tailwind CSS, Bootstrap
Programming Languages :	JavaScript, C++, Java, Python, PHP
Tools & Platforms :	Docker, AWS, React Native, Ionic Framework, GitHub, Postman
Soft Skills :	Critical Thinking, Collaboration, Problem Solving, Teamwork, Adaptability

EDUCATION

Krishnarpit Institute of Technology | Prayagraj — 2021 - 2025
B. Pharm — **CGPA :** 7/10
